Basic Support included for all AWS customers

At AWS, we want you to be successful. Our Support plans are designed to give you the right mix of tools and access to expertise so that you can be successful with AWS while optimizing performance, managing risk, and keeping costs under control.

Customer Service and Communities - 24/7 access to customer service, documentation , whitepapers , and AWS re:Post.

AWS Trusted Advisor - Core checks and guidance to provision your resources following best practices to increase performance and improve security.

AWS Health - A personalized view of the health of AWS services, and alerts when your resources are impacted.

Unified Operations

1. Credits are issued by the 10th of each month, apply to DevOps Agent charges within that month, and expire at month-end if unused.

2. We will make every reasonable effort to respond to your initial request within the corresponding timeframes.

3. Resolution effectiveness depends on available context. Alarm onboarded workloads benefit from immediate access to comprehensive workload information, while non-onboarded workloads begin with service health data and customer-provided information

4. See AWS Security Incident Response Pricing for details.

5. See AWS Support Pricing for details.

6. One recurring subscription per month included with plan.
